Motion/Second: Mejia/R. Hill

Carried 6/0 (Salai abstained): The Traffic Commission approved the Special Meeting Minutes of December 14, 2022 with the requested changes.

Motion/Second: D. Hill/B. Hill

Carried 7/0: The Traffic Commission approved the Regular Meeting Minutes of January 11, 2023.

7. STAFF REPORTS

A. Parkewood Neighborhood Red Curb Painting

Development Services Director Noda summarized the staff report.

Commissioner R. Hill asked Mr. Lang about the current condition for vehicles exiting the neighborhood and the presence of a blind spot. Mr. Lang described the dangerous conditions for vehicles, despite the maintenance to the hedges.

Commissioner D. Hill asked about whether the extension of the red curb would eliminate any parking spaces – Mr. Lang stated that it is not often that people park in those areas.

Commissioner Murphy asked and received clarification from Development Services Director Noda regarding the options proposed, which would include additional red curb for consideration.

Commissioner Mejia asked about the access for emergency vehicles - Mr. Lang described his experience of where he has seen emergency vehicles park during a call for service.

Commissioner Mejia asked and received clarification from Development Services Director Noda regarding the process for notifying residents about these types of changes, and whether the City would incorporate this as a step in the process.

Commissioner Mejia asked and received clarification from Sergeant Malatesta about the restrictions for parking on corners.

Commissioner Salai asked and received clarification from Sergeant Malatesta about the current level of enforcement in the neighborhood. Sergeant Malatesta advised that in the event of a serious safety hazard, making contact with the vehicle owners is their first step approach before considering the impounding of a vehicle violating restrictions.

Commissioner Salai asked and received information from Mr. Lang about the basis for this request, despite there being a lack of complaints from residents to the Police Department. Mr. Lang stated that the community has older residents, which makes it unsafe without sidewalks when walking. Also, due to vehicles it causes very congested streets.

Commissioner Salai and Development Services Director Noda discussed the following:

- Whether approving this request would set a precedence for other similar requests throughout the City.
- If this request is approved, whether it would trigger the mandatory enforcement of all red curbs.
- The two options proposed, and whether the painting of the corners is appropriate.
- Whether the HOA would cover the costs for this request.

Commissioner Mejia asked and received clarification from Development Services Director Noda regarding how long the red curb would be in place, and when it would necessitate repainting. Development Services Director Noda advised that curbs and address numbers are regularly repainted throughout the City every two (2) years.

Commissioner R. Hill discussed the circumstances for this request, and the substantial differences this has to other requests for red curbs in the City.

Chair Patz discussed not approving this item today, and instead allowing staff the opportunity to notice residents of that neighborhood for the chance to provide feedback.

Commissioner Salai asked and received clarification from Development Services Director Noda stating that requests for curb paintings do not go before City Council for consideration. Also identifying that code changes do go before City Council for consideration.

Chair Patz stated that he is not concerned that approving this request would set a precedence, as it is a unique area.

Motion/Second: R. Hill/

Not Carried: The Traffic Commission made a motion to approve the curb painting request as submitted, subject to the results of the notification to the residents of the neighborhood.

Commissioner R. Hill rescinded his motion.

Motion/Second: R. Hill/Marchese

Carried 7/0: The Traffic Commission approved moving this item to the next meeting, pending feedback from the community regarding the red curb request in the Parkewood neighborhood.

B. Traffic Commission Status Log

This is a tracking tool used by the Traffic Commission to track assignments and accomplishments.

Commissioner Salai shared the following:

- Item A29 – requested the status of the school traffic study. Development Services Director Noda advised that staff is in the process of securing a Consultant to develop a new study.
- Briefly discussed the traffic conditions surrounding the High School, and the timing of the traffic lights.

Commissioner Mejia stated that he experienced some difficulty accessing the agenda and attachments on the City website. Department Secretary Enciso and Development Services Director Noda advised that the City website was transitioned to its latest format about ten months ago, which changed the way agendas are downloaded.

Commissioner Murphy asked about his request for a median marker on the east side of Katella Avenue. Development Services Director Noda advised that the item would be added to the log and will be assessed.

8. FROM THE DEVELOPMENT SERVICES DEPARTMENT

Development Services Director Noda announced the departure of Department Secretary Maria V. Enciso.

9. TRAFFIC COMMISSION INITIATED BUSINESS

Commissioner Mejia asked about the following items:

- Several safety lights around the City are incandescent, and should be fixed. Development Services Director advised that the safety lights are slated for replacement to Light Emitting Diode (LED).
- The recently implemented parking restrictions in front of Katella Deli, and why this change did not go before the Traffic Commission for consideration. Additionally, seeking copies in the future of any noticing sent to residents pertaining to parking and curb painting changes.

Chair Patz thanked Department Secretary Enciso for her service.

10. ADJOURNMENT

Motion/Second: Murphy/D. Hill

Carried 7/0: The Traffic Commission unanimously voted to adjourn the meeting until March 8, 2023.

The Traffic Commission adjourned at 7:37 p.m.

TRAFFIC COMMISSION AGENDA REPORT

MEETING DATE: March 8, 2023

ITEM NUMBER: 6A

To: Chair R. Hill & Members of the Traffic Commission

Presented By: Ron Noda, Development Services Director

Subject: Parkewood Neighborhood: Red Curb Painting Request

SUMMARY

Request from Parkewood Neighborhood Home Owners Association (HOA) to paint additional red curbs within the neighborhood.

RECOMMENDATION

1. Consider and discuss the installation of red curbs (Exhibit A) throughout the Parkewood neighborhood as requested;
2. Consider and discuss the installation of red curbs on certain segments of streets (Exhibit B) in the Parkewood Neighborhood; and,
3. Provide directions to staff.

BACKGROUND

The City received concerns from the Parkewood Neighborhood Home Owners Associations (HOA), regarding the installation of additional red curbs at the following locations:

1. The entrances to the cul-de-sacs at five (5) locations. The HOA expressed concern that blockage to these streets could restrict emergency services vehicles from entering the street to gain access to a residence due to emergencies. It is recommended to paint one side of each entrance with a red curb to resolve this concern.
2. The four corners of the Parkewood neighborhood have been identified as blind spots. Vehicles that are parked in the vicinity of the rounded areas, will not be able to have a clear line of site for both oncoming and/or parked vehicles. Parkewood residents also walk their pets along the streets of Olympic Drive, Lunar Drive, Satellite Drive and Lampson Avenue frontage. When a situation occurs of two vehicles trying to navigate between another, a resident walking the neighborhood, and a parked vehicle has created a risk management concern for both Parkewood residents and the City. In order to keep blind spots to a minimum, it is recommended to extend the red curbs between 15 feet on the interior turns and 42 feet in each direction on the outer turns.
3. The entrance where residents turn left or right onto Lampson Avenue needs 35 feet to the west and east of the entrance. Vehicles parking on both sides of the street creates congestion, reducing the entrance lane area to one lane and making it difficult for

vehicles to safely pass.

DISCUSSION

The City's Traffic Engineer visited the area and assessed the request. Based on the field review, the City's Traffic Engineer agrees and recommends the installation and extension of red curbs at the four corners and the entrance to the neighborhood from Lampson Avenue (Exhibit A). The California Vehicle Code prohibits any parking of vehicles within the curb returns of any streets. However, to accentuate the parking prohibition, the Traffic Engineer is recommending the installation of red curbs on both sides of cul-de-sac entrances.

Exhibit A

The alternative to be considered by the Traffic Commission is just re-paint the existing red curbs and extend the four corners of the red curbs by 20 feet in each direction (Exhibit B).

Exhibit B

FISCAL IMPACT

If approved, the City's Public Works Division will install the recommended red curbs. Labor and supplies will cost approximately \$3,000 and will be taken out of the Development Services Street Division budget.
